

Appl. № 10/754,800

Amdt. dated: March 14, 2006

Reply to Office action of December 23, 2005

Amendments to the Specification:

The amendments to the Specification are accomplished in compliance with the comments and suggestions of the Expertise (Office action of 12/23/2005). The said amendments to the Specification are submitted in the attached hereto **Enclosure 1**, which includes 27 pages. The clear copy of Specification is attached hereto as **Enclosure 2** at 24 pages. This amended Specification includes no new matters. All the amendments to the specification and insertions of the additional explanatory text therein are fulfilled in accordance with the "Amendments in a Revised Format Now Permitted" [1267 OG 106 (2/25/03)], whereas the deleted text is shown in the strikethrough or double brackets format. This amended Specification will replace the prior versions of Specification of the application: "Method of Defense-in-Depth Ultrasound Intrusion Detection".

Respectfully submitted, CTRL Systems, Inc.
